HARSIMRAN SINGH

INTRODUCTION

I am an enthusiastic Full Stack Web Developer with a passion for building efficient and user-centric web applications. Currently, I am in final semester of post graduate level Web development program, in which I am seeking work placement as well as permanent employment. With a solid foundation in both front-end and back-end technologies. I worked as a full stack developer where I built and maintained multiple websites using technologies such as PHP Laravel, JavaScript, RESTful Web Services, and Shopify.
